

Crowthorne Woods

Accessed from Caesar's Camp, Upper Star Post or Lower Star Post, this is a smallish area of woodland but there are many trails among the trees to be found. Navigation is fairly easy as the area overlooks the Golden Retriever roundabout and Foresters Way so its usually easy to keep your bearings. Start to learn the area by first learning the way round the perimeter, but then gradually take the chance to try random trails. At the southern side, you will find the MoD land fence which has a track all along it starting near Lower Start Post and runs all the way to where the Devils Highway passes under Forester's Way. The underpass gives access to Broadmoor Woods (see later).
